Table of contents

Executive summary	5
1. Introduction and overview	11
Location	12
Size	14
2. IT budgets	16
3. Installed base and future plans	19
Clinical applications	22
Infrastructure applications	29
4. Major IT projects in hospitals	33
Top clinical projects	34
Top infrastructure projects	35
Cost comparison	37
Comparison of HR requirements	38
In-house projects vs. joint ventures	40
Why hospitals implement specific technologies	42
Summary comments	48
5. Transmission of reports and images	53
6. Security and privacy	57
7. Disaster recovery plans, business continuity plans	61
8. Canada Health Infoway	64
9. Smart Systems for Health Agency	67
10. Integrating the Healthcare Enterprise (IHE)	68
11. Canada compared to USA and UK	70
12. Conclusions and recommendations	73

List of tables

1.1	Institution type by location	12
1.2	Do you share IT functions?	13
1.3	Do you plan to increase the sharing of IT functions?	13
1.4.1	Number of beds in organization	14
1.4.2	Size of organization by type	14
2.1	IT budget as a percentage of total operating budget	16
2.2	IT budget as % of total operating budget, 2002, 2003, 2005	16
3.0	Definitions of adoption and implementation categories	20
3.1.1	Clinical application adoption	21
3.1.2	Clinical application implementation	24
3.1.3	Clinical application suppliers	25
3.1.4	Clinical application satisfaction by level of adoption	27
3.2.1	Infrastructure application adoption	28
3.2.2	Infrastructure application implementation	30
3.2.3	Infrastructure application suppliers	31
3.2.4	Infrastructure application satisfaction by level of adoption	32
4.1.1	Major clinical project	34
4.2.1	Major infrastructure project	35
4.1.2	Total value of clinical project	36
4.2.2	Total value of infrastructure project	36
4.1.3	Duration of clinical project	37
4.2.3	Duration of infrastructure project	37
4.1.4	Number of clinical project staff	38
4.2.4	Number of infrastructure project staff	39
4.1.5	Wholly in-house clinical project	40
4.1.6	Clinical project joint ventures	40
4.1.7	Satisfaction with clinical project vendor	40
4.2.5	Wholly in-house infrastructure project	41
4.2.6	Infrastructure project joint ventures	41
4.2.7	Satisfaction with infrastructure project vendors	41
4.3	Comparison of major clinical and infrastructure projects	51
4.4	Comparison of projects (median values)	52
5.2	Electronic access to hospital reports	54
5.3	Plans for electronic access to reports	54
5.4	Ability to transfer clinical information by computer	55
5.5	Types of information that can be transferred	55
5.6	Regional, provincial or national transfer of information	56
5.7	Frequency of information transfer	56
6.1	Level of system security	57
6.2	Bypassing of security system	58
6.3	How seriously staff takes security	58
6.4	Degree of difficulty in maintaining security	59
6.5	Level of system security	59
6.6	Bypassing of security system	60
7.1	BCP and DRP, 2005	61
8.1	Familiarity with Canada Health Infoway	64
8.2	Canada Health Infoway's projects beneficial, so far?	65
8.3	Canada Health Infoway's new projects beneficial?	65
8.4	Canada Health Infoway's role in the future	66
9.1	Value provided by Smart Systems for Health Agency	67
10.1	Familiarity with the IHE initiative	68
10.2	Usefulness of IHE profiles	68
10.3	Current use of IHE profiles	69
10.4	Plans for the IHE profiles	69
11.1	Role of the Canadian PMO in healthcare IT	70
11.2	Level of adoption of IT in healthcare, Canada vs. UK	71
11.3	Level of adoption of IT in healthcare, Canada vs. USA	71
11.4	Adequacy of IT funding (Ontario)	71
11.5	Pace of IT adoption compared to USA (2003, 2005)	72
